A railroad bed was started in Hailstone and the grade was surveyed by Bp Henry Cluff up thru Woodland & the grade reached up thru Bench Creek.

Rail road Ties were laid along the bed up to Woodland before the instigator, W W Young ran out of Money

Mr WW Young was the same man that built the rail road up Parley's Canyon & beat Mr Gorgoza out of considerable money.

Plans were to extend this Wasatch Co Railroad from Hailstone, thru Woodland & up Big South Fork of the Provo River, over Wolf Creek & out into Uintah Basin
